120W
SOLAR BLANKET

BTBLANKET120

Go off-grid with the Baintech 120w Solar Blanket. Designed to charge your 4WD, RV and Marine batteries, this lightweight and compact blanket will produce up to 6.6A in optimal conditions.

Designed with ease of use in mind, the simple plug and play Anderson plug connection is secure, safe and easy to connect.

The Baintech blanket comes with a smart 20amp 12/24v PWM with chemistry profiles for 3 types of batteries –

GREAT FOR

- **High efficiency**
- **Compact**
- **Light weight**
- **Easy to use – plug and play**
- **All accessories and PWM included**

Included accessories:

PWM Regulator	6m Power Lead	Red Anderson Connection	Alligator Clamp Connector

Efficiency	18%
Model	120W (Blue)
Output	5.5V/2A & 18V/6.6A
Solar Cell	Monocrystalline Sunpower solar cell
Rated Power	18V 120W
Unfolded Size	1560mm H x 770mm W
Weight	3.6kg

FOR THE ULTIMATE OFF-ROAD POWER SYSTEM

By combining your new Baintech **120w Solar Blanket** with the **135ah AGM Baintech PowerTop** plus the **CTEK D250SA**, you have an ultimate off-grid system.

The Baintech PowerTop has 3 charging inputs: AC, DC and solar. Acting as a secondary battery, the PowerTop receives charge via your DC-DC charger while on the move, and while you're set up at camp the Baintech solar blanket will harness the power of the sun to keep your PowerTop battery topped up and running your essentials.

The PowerTop features a range of outputs, including: 2x Ciga sockets, 2x Engel sockets and dual USB. Giving you more power for more good times.
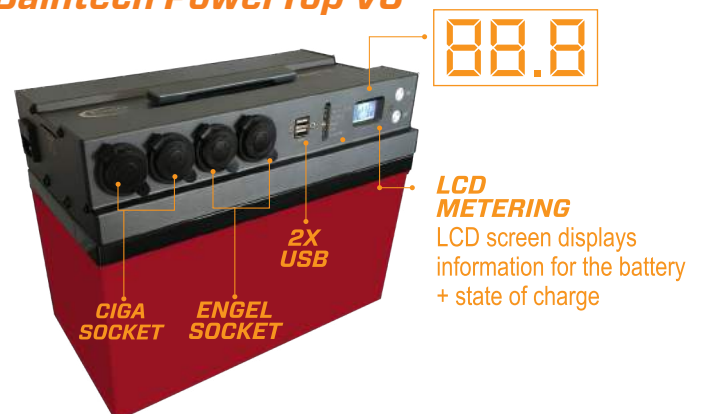

ADD ON:
Baintech Watt Meter

Take the guesswork out of how much power your solar panels are generating. The Baintech Watt meter once connected will give you real time information on:

• Current (Amps/A)

• Voltage (Volts/V)

• Power (Watts/W)
