

150Ah Slimline Lithium Battery

Constructed using the latest lithium iron phosphate cells. These prismatic cells are the highest quality in a metal hard case. The battery has an inbuilt Battery Management System (BMS).

At just 14kg, the unique slimline shape makes it the perfect battery for installations where space is a premium. Slide it behind a seat, bolt it to a wall or at the back of a cupboard.

The Slimline 150Ah battery provides up to 100A of continuous discharge or charge and can be stacked in parallel to increase amp hour storage capacity. Charge and discharge are via the four grey Anderson plugs. Comes with an accessible 100A fuse between two negative terminals.

The strong aluminium outer enclosure delivers a safe, lightweight and powerful unit which is the perfect building block for next generation battery systems.

Model: BTLITH12150-SL

Capacity	150Ah
Nominal Voltage	12.8V
Charge Voltage	14.6V max
Charge Current	100A
Discharge Current	100A max continuous
200A surge	
Operating Temp	0-45°C
Weight	14kg
Life at 80% DoD	2,000 cycles
Life at 50% DoD	5,000 cycles
Size (L x D x H)	600 x 232 x 85mm

**5 Year
Warranty**
