

FIRE FIGHTING - IRRIGATION - WATER TRANSFER - TRASH

1.5" DIESEL FIRE FIGHTING PUMP

With Electric Start

MYD15HPE

This 1.5" Diesel Firefighting Pump is a rugged and versatile model. The high quality Yanmar diesel engine drives a powerful, heavy duty, single-impeller pump. The pump housing, fittings and impeller are all made from durable cast-aluminium. The impressive performance ensures it is a great choice for firefighting as well as other applications such as water transfer, wash down and irrigation. Diesel powered pumps offer greater efficiency, long life times and can be safer due to the lower volatility of the fuel compared to petrol pumps.

The great performance and high quality Australian manufacturing make the MYD15HPE an excellent choice for a diesel powered, firefighting pump.
