

What's great about RV Wi-Fi?

RV WIFI routers, built for Australian Travelling

- RV Wi-Fi designed specifically for Recreational Vehicles,
- RV Wi-Fi comes with an external antenna. Most caravans are made with aluminium cladding. This reduces communication signals from coming into and leaving the caravan,
- RV Wi -Fi comes with a 12 volt power connection, no batteries to run out, just set and forget!
- RV Wi-Fi is not locked into any providers, your choice to buy on range or price.
- RV Wi- Fi comes with a media centre. Stream your movies and images to multiple devices at the same time, data free!
- RV Wi -Fi has no limit on users. The more the merrier!
- RV Wi -Fi offers 'in car entertainment' while you travel,
- RV Wi-Fi has excellent WI-Fi range in and around your RV,
- RV Wi-Fi has a multifunctional 3g/4/Wi-Fi enabled external antenna

RV WI-FI High Gain Antenna

Specifications
