

## ELECTRIC ROOFTOP UNIT

Suited for use in on-highway heavy duty, pneumatic tyred construction, agricultural and light duty mining vehicles. These electric rooftop units offer a fully self-contained solution alternative to off engine drive versions. With no need for an external compressor or hose runs the unit only requires power, earth and a drain tube to be run.

Part No:	E6100012P	E6100024P
Voltage:	12V	24V
Cooling Capacity (BTU):	11,900	15,000
Length (mm):	642	
Height (mm):	188	
Depth (mm):	790	
Current Draw:	60-100A (depending on voltage)	
Mount Type:	Rooftop	
Air Flow:	299cfm	
Weight:	45kg	
Charge Weight:	1.3kg	
Note:	Units are not charged with refrigerant	

### ASSOCIATED PARTS

Compressor:	RD5165760P	RD5163430P
Receiver Drier:	RD594191P	RD594191P
TX Valve:	RD568680P	RD568680P
Condenser:	RD447380P	RD447380P
Evaporator:	RD271790P	RD271790P
Blower Assembly:	RD588370P	RD588380P
