

SEAFLO WASH DOWN KIT

A compact 12V wash down kit suitable for the back of 4WDs, boats and utes.

Part Number

SFWP1-050-070-51

SEAFLO®

DEVELOPMENT

If 4WDs, boats and utes aren't washed down after use, salt and sand can cause damage.

SOLUTION

The SEAFLO wash down kit is made perfect for fitting in the back of a 4WD, boat or tradie's ute.

BENEFIT

SEAFLO's 12V wash down kit has an on-demand switch so it turns on automatically when the spray gun handle is squeezed. It's compact size allows for easy installation and storage.

EFFICIENCY

The 70 PSI cut-off gives enough pressure to get rid of stubborn debris.

A VERSITILE COMPACT PUMP

A powerful 12V wash down kit with a 70 PSI pump. Includes fittings, hose and nozzle. Perfect for the back of your 4WD, boat or tradie's ute.

This pump boasts a huge 18.9 LPM capacity with an on-demand switch, so the pump automatically turns on when you squeeze the spray gun handle.

Possessing a 70 PSI cut-off, it enables enough pressure to get rid of stubborn debris. Suitable for fresh and saltwater applications.

FEATURES

Maximum 9A power draw

7m UV protected recoil hose

Quick connect hose fittings

Trigger spray nozzle
