Heavy duty and durable trash pump.

Trash pumps handle larger solids and debris for heavy-duty de-watering applications. They use deep impeller vanes with a large volute and pumps water containing suspended sticks, stones and debris without clogging or harming pump components.

All of our trash pumps come with a cast iron impeller and inner casing making them robust and long lasting. Furthermore, they all have self-priming capabilities ensuring its ready for quick utilisation.

Our petrol trash pumps are ideal for hire and rental, general purpose de-watering, building and construction as well as agriculture. Applications include dams, sumps, slurry, pits and storm drains or anywhere water is with debris.

Our Crommelins Trash Pump Petrol 3 comes with a genuine and reputable Robin petrol engine, has a maximum water flow of 1300L per minute, has a

IDEAL FOR
